FYI. The suggested names for the two Open MRS PEPFAR reports for EPTS -

PEPFAR MER 2.1 QUARTERLY REPORT & PEPFAR MER 2.1 SEMI-ANNUAL REPORT

**Subject:** RE: Open MRS Report Question

Hey Maria,

Those names sound good. MER 2.1 is the version of the MER guidance.

**Subject:** RE: Open MRS Report Question

Thank you everyone. So if I understand the change request is for two Open MRS reports a quarterly and semi-annual report which includes the following indicators:

Quarterly

TX\_NEW

TX\_CURR

TX\_PVLS

Semi-Annual

TX\_RET

TX\_TB

TB\_PREV

These are currently in a report called PEPFAR MER 2.1 Report. Any suggestions for names would be appreciated.

PEPFAR MER QUARTERLY REPORT & PEPFAR MER SEMI-ANNUAL REPORT??? Does anyone know what 2.1 means?

Cheers,

Maria

**Subject:** RE: Open MRS Report Question

Agree that if even this will not be done till Q1, PVLS should be quarterly. IN general, any revisions to indicators that will be reported via EPTS would ideally be reflected in these different reports (new indicators or changes in periodicity).

**Subject:** RE: Open MRS Report Question

Hi Elizabeth,

I agree that this makes sense.

I wanted to note that for PVLS, we know that it will become a quarterly reported indicator in Q1FY19. I am assuming that the changes below will be made for that timeframe, and therefore would encourage us to shift TX\_PVLS to the quarterly report.

As always, as soon as we get guidance, we will share. I am sure OGAC will have more surprises for us.

Thanks for following up.

Quarterly

TX\_NEW

TX\_CURR

Semi-Annual

TX\_RET

TX\_TB

TB\_PREV

Annual (not on my original request but would be good to add)

PVLS

Let me know if you have questions.

Thanks, E

**Subject:** Open MRS Report Question

Hi Elizabeth,

You submitted a change request:

*One additional request. In the current format, all indicators (semi-annual and quarterly) are in one report. Would it be possible to split these into two reports—one for quarterly and one for semi-annual indicators? While we can run the full report twice (once for each period), this may lead to errors if the wrong version of a particular indicator is mistakenly used. Having a specific report for each time period would minimize potential errors and would still allow partners to run the queries for a different period if they would like to do that.*

Can you tell me which indicators you would like in the semi- annual report and which in the quarterly report? I am logging it as a change request and need additional information.

Thank you,

Maria
