Hello,

Below are the notes from our weekly status meeting. Please let me know if you have any edits. I will send the revised work plan shortly.

Thank you, Maria

Invitation Message

Participants

ZRein, Maria (CDC/DDPHSIS/CGH/DGHT) (Meeting Organizer)

Themos (CDC fgh.org.mz)

Campion, Alessandro (CDC gmail.com)

🔽 Zainabe Dada

🔁 Pinki Meggi

🔁 Antonio Vasco Sitoi

Colles, Denise (CDC/DDPHSIS/CGH/DGHT) (Declined in Outlook)

Agnaldo Dinis Guambe, (CDC/DDPHSIS/CGH/DGHT)

🔁 Raja, Madona (CDC/DDPHSIS/CGH/DGHT)

🛃 Eurico José

🔽 Fernanda Alvim

🛃 jembifocalpoint@googlegroups.com

Lopa Basu

Cicero Nhantumbo (Accepted in Outlook)

뉩 Nathan

🔁 Wayne

Notes

- EPTS
 - o Release modules and versions
 - $\circ\;$ Keep the release as it is and have a "table" for each module and the release number
 - Open MRS Version
 - Reports module
 - Synchronization module

• We need to ensure all partners are using the same concept dictionary. From preliminary assessments it appears as if CCS and FHI have differences, everyone else is OK

• JEMBI via CDC to ask each partner to send a screen shot of their configuration screen , they will provide upgrade migration scripts

- o During centralization initiative with FGH, Ariel , CCS, can also ask for Concept dictionary
- o Data quality issues should be addressed at this time as well (will work on this after the March release)
 - Need guidance regarding what to do with old patient records (Maria)

Jembi Health Systems Correio - CDC FGH JEMBI Weekly Status Meeting March 4, 2018

• Indicators are not be deployed fast enough and therefore MOH has requested that Ariel develop queries/ SQL Scripts that will be run outside of EPTS

 $_{\odot}~$ CDC is going to allow Ariel to generate the queries, and will notify MOH the indicators will not be tested or certified

 $\circ~$ ARIEL will be responsible for providing support to the clinical partners

 $_{\odot}~$ Eventually these indicators will need to be included in EPTS, so JEMBI and FGH should work with ARIEL when they meet with MOH if possible

- Reviewing the work plan (see revised work plan)
 - o TX TB requirements are being reviewed
 - o TB PREV requirements haven't been provided to PEPFAR

 $_{\odot}~$ TX ML waiting for PEPFAR to answer questions, more than likely won't be included in the March release

- An indicator can take 2 weeks to develop, 1-2 weeks to test (new indicators)
- Including SISMA, DevResults and DATIM in EPTS
 - Will evaluate for next release, needs to be included in centralization
 - Maria to inquire regarding SARA survey

• MOH Report - Roxanne, requirements meeting, delay in report , this report won't be included in the March release

 $\circ\;$ Need to let Roxanne know and need to begin having requirements meeting and documenting requirements

• Only 1 meeting occurred to date
