Hello,

Below are the notes from our call today, please let me know if you have any edits. Please include Agnaldo and I in any code sharing.

Thank you,

Maria

PEPFAR, CHASS/FHI, JEMBI, FGH EPTS Reports Call

Tuesday, January 15, 2019

9:06 AM

Meeting Subject: Conference Call CHASS/FHI, JEMBI, FGH, PEPFAR CDC and USAID - Placeholder

Meeting Date: 1/15/2019 9:00 AM

Location: Skype Meeting

Link to Outlook Item: [click here](#)

Invitation Message

Participants

[Rein, Maria \(CDC/DDPHSIS/CGH/DGHT\)](#) (Meeting Organizer, Joined in Skype for Business)

[Elizabeth Oliveras](#) (Joined in Skype for Business)

[Hill, Charlotte \(CDC state.gov\)](#)

[Seth Greenberg](#) (Accepted in Outlook)

[Ibasu](#)

[Aristides Nhanala](#)

[Agnaldo Dinis Guambe, \(CDC/DDPHSIS/CGH/DGHT\)](#) (Accepted in Outlook)

[Elisio Freitas](#) (Accepted in Outlook)

-  Eurico José
-  Ntasis, Themos (CDC fgh.org.mz)
-  Fernanda Alvim
-  Chehab, Joel C. (CDC/DDPHSIS/CGH/DGHT)
-  Ferreira, Ferreira (CDC usaid.gov) (Accepted in Outlook)
-  jembifocalpoint@googlegroups.com
-  Zainabe Dada (Accepted in Outlook)
-  Pinki Meggi (Accepted in Outlook)
-  Raja, Madona (CDC/DDPHSIS/CGH/DGHT)
-  Giles, Denise (CDC/DDPHSIS/CGH/DGHT)
-  Guest (Joined in Skype for Business)
-  CDC M&E Team -Lucio
-  Horacio Mondlane (Joined in Skype for Business)

Notes

TX PVLS

- The team discussed the differences in results being reported between the following three reports:
 - PEPFAR MER , specifically TX PVLS
 - Lista de Pacientes come Exame de Carga Viral
 - Lista de Pacientes Resultado de Carga Viral nos Ultimos 12 Meses
- The two "Lista" reports were not revised to include the assumptions implemented in the TX PVLS modifications and that is more than likely the reason the reports are generating different results
- **ACTION ITEMS:**
 - **FGH and JEMBI have the code for Lista de Pacientes come Exame de Carga Viral Report**
 - **FHI to share the code for Lista de Pacientes Resultado de Carga Viral nos Ultimos 12 Meses with JEMBI and FGH**
 - **JEMBI and FGH are to run the two reports and TX PVLS against a de-identified database to review the difference in output and determine if they can assess why there are differences**
 - **JEMBI has shared the TX PVLS code with FHI, but will share the underlying part of the code that explains where the data is being pulled from the database**
 - **FGH will share the TX PVLS code with the group**
 - **JEMBI will schedule a future workshop to explain how the code is working (not a high priority)**

- TX PVLS currently only looks for laboratory results captured in Ficha de Laboratorio but does not capture laboratory results in the Ficha de Segmento
 - TX PVLS could potentially miss patients with a viral load result if the laboratory result is captured in the Ficha de Segmento
 - **ACTION ITEMS:**
 - **Maria will reach out to Charlotte, the M&E team, program team, and JEMBI/FGH to schedule a meeting to review the requirements for TX PVLS to determine why this source was excluded from the algorithm**

REPORT TEMPLATE

- During the PEPFAR HIS Partners meeting at the JAT, PEPFAR shared the reporting format template. Charlotte distributed the template requesting feedback from the clinical partners.
- The final version of the template had changed (the order of the variables) making it difficult for the M&E team to aggregate the data.
- The Reports Template should follow the output of EPTS and must be aligned
- If the aggregate columns differ, it can make it difficult for M&E teams in the field to aggregate information
- The development team needs to consider the users

ACTION ITEMS:

- **CHASS/FHI will share the differences between the template and the output for JEMBI and FGH to review**
- **PEPFAR CDC HIS Team to ensure UAT is implemented regarding templates prior to deployment**
- **PEPFAR CDC HIS Team to ensure the release notes contain complete information regarding all changes**
- **CDC HIS Team will determine if the template can be aligned for March**

CDC PEPFAR team requested all concerns be submitted to the JEMBI Helpdesk for tracking

CDC has weekly EPTS status meeting with JEMBI and FGH and will follow up regarding this issue and report back to USAID and CHASS/FHI.
